Dear FCC

Three reason why K-Love is important to me, my community and to the Public interest.

1. As a supporter, K-Love provides me and my family with positive and encouraging music 24/7.

2. The effect on the community would be the loss of information on upcoming events and concerts in the area. Plus keeping the public up to date with the latest news and world current events.

3. K-Love has helped influence thousands of people around the world to know are Lord Jesus Christ. I can't think of any better way to provide a service that's in the Public Interest.
